like its predecessors volume iii of the handbook for teaching introductory psychology provides introductory psychology instructors with teaching ideas and activities that can immediately be put into practice in the classroom it contains an organized collection of articles from teaching of psychology top the official journal of the society for the teaching of psychology division 2 of the american psychological association volume iii contains 89 articles from top that have not been included in other volumes another distinction between this volume and its predecessors is its emphasis on testing and assessment the book is divided into two sections section one issues and approaches in teaching introductory psychology contains 52 articles on critical issues such as how to approach the course understanding students interests perceptions and motives students existing knowledge of psychology including their misconceptions a comparison of introductory textbooks and tips on how to evaluate them test questions and student factors affecting exam performance an overview of different forms of feedback giving extra credit and how to deal with academic dishonesty section two consists of 37 articles that present demonstrations class and laboratory projects and other techniques to enhance teaching and learning in both the introductory as well as advanced courses in the discipline this section is organized so as to parallel the order of topics found in most introductory psychology textbooks intended for academicians who teach the introductory psychology course and or oversee grad assistants who teach the course all royalties of the book go directly to the society for the teaching of psychology to promote its activities to further improve the teaching of psychology

in this groundbreaking book authors jose b ashford an expert in the relationships among human development crime and psychopathology craig winston lecroy an expert in child and adolescent behavior and kathy l lortie an expert in infant mental health offer a text that is more balanced integrated and applied than other texts for the course in addition the book s multidimensional framework integration of the biopsychosocial dimensions for assessing social functioning attention to foundation knowledge and diversity and use of case studies to illuminate the applied aspects of hbse content all combine to give readers an experience that is meaningful and exciting using a unique multidimensional framework for assessing behavior the authors look at biopsychosocial development across the life span lively and comprehensive this book succeeds where other have failed it helps students connect foundation knowledge with practice concerns

recently revised the sixteen chapters in individuals in society explore in depth the issues that contribute and factor into an individual s place in the 21st century moorman sicard and mcnair have come together to develop a book that covers a variety of topics such as critical thinking and social science understanding people interpersonal communication biological sex and gender identity and many other topics

college students are subject to a massive input of stresses which require successful and ever changing coping strategies these stresses include inside and outside pressures by the world to succeed financial worries concerns about uncertain futures social problems and opportunities since college is often the meeting place for future mates and homework and tests in multiple and complex subjects requiring preparation and focus with often conflicting priorities unsuccessful coping often results in anxiety heavy drinking depression and a host of other mental health problems this new book presents new and important research in this important field

most people experience some difficulty with writing formal or technical papers students in particular can experience problems with the

requirements of writing papers in psychology this book is a comprehensive companion to the entire writing process covering thinking analytically and critically taking notes organizing information and ideas preparing and planning writing drafts and editing it emphasizes the principles and logic underlying the thinking and writing process so that these may be applied to a range of essays literature reviews and research reports the book also includes advice and guidance on the reporting of statistics and on the design preparation and use of figures and tables to illustrate research results it also includes reference material on grammar punctuation spelling abbreviations and on typing and presentation for ease of finding relevant material it is organized into parts that relate to various aspects of writing and types of papers and includes internal cross references a checklist of the writing process and examples of good and bad research reports the principles of writing in psychology is suitable for use at all levels of study and beyond it is consistent with the 5th edition of the publication manual of the american psychological association but also covers deviations from this and includes material not included in the manual t r smyth held academic appointments at many of australia s foremost universities including charles sturt university the university of adelaide flinders university and the university of canberra he also authored the psychology thesis research and coursework and writing in psychology a student guide

to be the most comprehensive neuroscience introductory psychology book every chapter contains much new research and cutting edge coverage all accessibly presented with engaging real world examples that make the material relevant and interesting to students

written by andrew peck of penn state this unit by unit student workbook makes weiten s psykrek 2 0 even easier to assign in class and is offered as a bundle item with the text
