rosen and gayer s public finance provides the economic tools necessary to analyze government expenditure and tax policies and along the way takes students to the frontiers of current research and policy while the information presented is cutting edge and reflects the work of economists currently active in the field the approach makes the text accessible to undergraduates whose only prior exposure to economics is at the introductory level the authors years of policy experience have convinced them that modern public finance provides a practical and invaluable framework for thinking about policy issues the goal is simple to emphasize the links between sound economics and the analysis of real world policy problems enhancements and key features for this new global edition include new policy perspectives introduce relevant and engaging examples of international policy so students can extend their understanding of theory to

policymaking across the globe new empirical evidence applications provide students with real world examples that are relevant to them from case studies about sweden and china to global examples that compare experiences between countries updated end of chapter questions broaden critical thinking encouraging students to apply their knowledge to international and comparative examples the results of econometric models are used to help students understand how expenditure and tax policies affect individual behavior and how governments set policies integrated theory and analysis institutional theoretical and empirical material is interwoven to provide students with a clear and coherent view of how government spending and taxation relate to economic theory current research is presented alongside discussion of methodological and substantive controversies the approach is modern theoretical and empirical and shared by most active economists institutional and legal settings are described in detail and the links between economic analysis and current political issues are emphasized this global edition has been adapted to meet the needs of courses outside of the united states and does not align with the instructor and student resources available with the us edition

this handbook provides a comprehensive account of the languages spoken in ethiopia exploring both their structures and features and their function and use in society the first part of the volume provides background and general information relating to ethiopian languages including their demographic distribution and classification language policy scripts and writing and language endangerment subsequent parts are dedicated to the four major language families in ethiopia cushitic ethiosemitic nilo saharan and omotic and contain studies of individual languages with an initial introductory overview chapter in each part both major and less documented languages are included ranging from amharic and oromo to zay gawwada and yemsa the final part explores languages that are outside of those four families namely ethiopian sign language ethiopian english and arabic with its international team of senior researchers and junior scholars the oxford handbook of ethiopian languages will appeal to anyone interested in the languages of the region and in african linguistics more broadly
